Name
Description
Elevated privilege
action_category_creator
Allows creation of action and subflow categories.
false
action_designer
action designer role enables users to launch Action Designer
false
activity_admin
Can create, edit, publish or delete wf_element_provider
false
activity_creator
This role give workflow users the ability to create custom orchestration activities in the workflow canvas.
false
actsub_admin
Activity Subscriptions Administrator role
false
actsub_user
Activity Subscriptions User role
false
admin
The System Administrator role. This role has access to all system features, functions, and data, regardless of security constraints. "Grant this privilege carefully." If you have sensitive information, such as HR records, that you need to protect, you must create a custom '"admin "' role for that area and train a person authorized to see those records to act as the administrator
false
agent_admin
Can download and administer the system's built-in agent
false
agent_security_admin
Manages security of the MID Server.
false
agent_workspace_user
Users of the Agent Workspace application may navigate to the URL for that application
false
